The Southeast Alabama Bull Test

Southeast Alabama Bull Test's goal is simple: produce exceptional bulls!

Reaching that goal, as any cattleman knows, demands meticulous attention to detail at every stage of herd management. That commitment is the line R&K Farms walks. They started walking that line when they brought the bulls into Elba to put them on a 110-day test.

"We are very strict and tough on structure, phenotype, good feet and legs and performance," says Michael McCart, who manages the new bull test for R&K owners Ronny and Jane Nicholson. "Our goal is to have the best set of beef bulls anybody can buy in the Southeast."

They decided to start a bull test when the area's only existing sale closed in 2014.

"We've got a really good market in this area for bulls and there's nobody else who sells bulls on test," McCart says.

Thank you for your interest in this sale and hopefully see you again next year.
