Dear Cattle Folks,

*Congratulations to all participants as this is our 18th Annual Southeast Angus Classic Female Sale!! The founding group responsible for this Great Angus Event is to be praised for their wisdom in establishing this marketing avenue. May 16 affords you an awesome opportunity to select from some of the most outstanding genetics of the Angus breed.*

*On behalf of all participants in this sale, I would like to express my appreciation to Rosemond Lawler Dudley and Tillman Dudley for allowing us to hold this prestigious event on their lovely ranch.*

*The rigid guidelines which founded this sale has been maintained over the years to keep this sale offering at an all-time peak of tremendous Angus. All animals must be by an AI sire, their dams must be by an AI sire, the calf at side must be by an AI sire and the females bred back must have been bred at least once to an AI sire. No other sale in the Southeast has these strict requirements to follow. That is a tough rule to hold to and now all animals must be AM, NH and CA tested free or be from non-carrier ancestry. In addition, and perhaps one of the greatest aspects of this breed is the performance statistics backed by the accuracy of the American Angus Association with no other breed to match to date.*

*I challenge you to study this sale book and take note, that from the standpoint of pedigree, you will be hard pressed to find as impressive set of females no matter where you travel. These females and their offspring are as good as any in the country and are worthy of being used in any program. Do not miss this opportunity.*

*I look forward to seeing each of you on May 16, 2015 at the beautiful Lawler Farm for our 18th Annual Southeast Angus Classic Female Sale. Please give me a call or contact any consignor if we may assist you in any capacity.*

Sincerely,

Jarvene Shackelford
