Springfield Angus located in central North Carolina is devoted to producing Angus seedstock. Our breeding program represents a balance of low to moderate birth weights along with strong maternal, growth and carcass genetics utilizing the breed's most proven sires. Our goal is to produce bulls that are structurally correct, that excel in calving ease, performance and carcass merit. Our bulls are evaluated with an on farm performance test, ultrasound and breeding soundness exam.

All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the limit specified above and animals returned must be free from disease and in good condition.

All cattle are registered in the American-International Charolais Association, and proper certificates will be furnished. Transfer of ownership will be completed by the seller.
