Welcome to the Third Annual Bull Sale at TJB GELBVIEH

Dear Fellow Cattlemen and Women-

Welcome to the TJB Gelbvieh Bull Sale! I want to thank you all for taking time to consider us as your bull provider. It is a challenge we do not take lightly and I assure you we put forth our greatest efforts to produce a quality product and provide the service to satisfy your demands.

WOW! What more can be said for where we are today in the cattle industry. I do not believe anyone could have projected the calf prices we are enjoying currently, but I know right now is a great time to invest in quality genetics.

The Gelbvieh breed is recognized for its maternal characteristics, which is the primary reason we selected the breed. With that in mind, our herd is built upon select females with proven genetics. As you view the catalog, you will notice that I have listed the bulls by their "Cow Family". This is an approach much different than most bull sales, but it is our "Maternal Magic" philosophy, which is based on the exceptional female. Our bulls will produce your replacement females to build your future in this time of herd expansion.

I would like to thank my family for all they have done to help, and most importantly, their understanding of the time commitment required for us to make this happen. A special thanks goes to Kelsie for her catalog design. It has been our dream to do this together, and I think she did a remarkable job. Lastly, I want to recognize Mitch, because we certainly could not do this without his help. He is asked to do numerous things, and he always does them with much enthusiasm. I could not do it without each and every one of you.

If you have any questions about the bulls, please call me or Mitch. We will certainly help you in every way possible. I encourage you to visit our web site frequently for updates and videos. Also, if you have time, please come Friday night or stay Saturday night and enjoy our best southern hospitality.

We look forward to seeing you.

Sincerely,

Todd J. Bickett DVM

— CATALOG DEDICATION: ED BICKETT —

I welcome this opportunity to be able to thank my Dad (85 years young!) for all he has done for my family and me. He is a man of few words that chose to teach his family to become morally Christian people by example and not words. He provided us the opportunity to make our choices in life and encouraged us to pursue our dreams. When facing adversity, he never complained, and he only gave advice when it was asked for. Thank you for being here and thank you for all you have done.

Dr. Todd, Alisa, Kelsie & Katelyn Bickett

Mitch McLaughlin & Family

Some of the family at last year's sale

Vickie Vail Family

TJB Velvet 912U- ET / Donor Dam of Lots 1 & 2

This is the most dominant cow family ever incorporated into TJB Gelbvieh. We first saw the original Vickie Vail on a visit to Beartooth Ranch in Montana in 1992. We eventually bought her in 1996 and the rest is "our history". Her accomplishments are numerous in the breed as well as in our program. These cattle possess a unique style. They always stand out in a pasture but most importantly they are very sound, good footed, fertile cattle with plenty of growth.

Vickie Vail / Family Matriarch

TJB Velvet 226M / Dam of 912U

TJB Velvet 908U / Full sib to 912U

TJB Vanessa 9107H / Granddam of 912U

We are very proud to offer TJB Vickram 342A as our Lot 1. This bull is special! 342A is the most powerfully built bull ever produced here. He is tremendously thick made while maintaining soundness and athleticism. Only time can prove the true greatness of an individual but this one has the potential to be a breed changer. We certainly intend to utilize Vickram heavily in our program. He is a complete package and he is homozygous black and polled. This bull deserves the attention of all breeders. His pedigree is unique, his numbers are good, and he is HB/HP. We retain 1/2 semen interest.

A full brother to 342A, even though he is a different color! You will be impressed by the "look" of this red bull. If you want a non-diluter red bull with the same power as his HB brother carries, here he is. This HP bull is as different as any bull you may see this season. You will have the opportunity in this sale to purchase several HP non-diluter red bulls that are herd sire potential. Please give them a look.

This will be one of the last opportunities to purchase bulls by Velvet 226M. Those of you familiar with TJB realize the impact this cow has had on our herd through her Balancer® progeny. Not only are the base females in this herd by Velvet and sired by Matrix and Grass Master, we are using two Velvet/Grass Master sons. These bulls are in the top 4% CED, 3% BW, and 1% CEM and YG. Great heifer bulls that you won't have to sacrifice anything! Actually you will be adding the best of TJB Balancer® genetics. Both bulls are HP.

TJB Anissa 913U / Dam of Lot 17 & 18

TJB Anissa 337M / Family Matriarch

Anissa Family
 Words can't possibly describe the impact 337M has had on our herd. Although her epd's are not big on growth (thanks to New Day), we don't feel we give up anything with these cattle. 337M is a granddaughter of 61Y (Dam of Freedom-one of most influential bulls ever). Her dam, 19F was also a great donor for TJB and Severtson. That makes the 337M daughters i.e. 913U, 921U in our herd fourth generation donors (61Y, 19F, 337M). The body depth and shape of these cattle is amazing and the udders are perfect.

TJB Enchantress 745S / Dam of Lot 23

Enchantress Family

The family dam, 745S, is one of the most phenotypically ideal beef females you will find. She is also HB/HP and a daughter of a Lemmon female descending from Rishel Angus. We have added this female to our donor battery and expect you will see many progeny in the near future. 745S is in top 1% for milk and top 1% for REA.

Michelle Family

Michelle had a significant impact on TJB Gelbvieh. Although not one of the best known families here, she influenced us greatly through her son, Masterpiece. These cattle are very moderate framed with plenty of milk and all important style and eye appeal. 931J was one of the high selling lots in our dispersal and went to Josh Phillips. 448P returned to us from Bob Hart.

TJB Jagermeister 229E / 2003 NWSS Futurity Champion
Full Brother to TJB Joy 224L / Family Matriarch

— Joy Family —

This family actually originated from a fullblood cow from Nelson Ranch, LNR Miss Admiral 662S. From there, we proceeded to produce Jenny (JR daughter), then Jasmine (Gizmo daughter), and finally Joy. This is one of the highlight families here. Joy's full brother, Jagermeister earned us 2003 NWSS Bull Futurity Champion. What a thrill in our past! This family will not be the best represented by numbers but they sure have earned their credentials.

Blackcap Family

TJB Blackcap 823T / Dam of Lots 30 - 32

— Blackcap Family —

This family descends from one of the greatest Angus females and cow families I ever had the privilege of working with. GAR 2114 was the dam of many herd sires in the Angus breed as well as countless females. Her daughter GAR Precision 706 is the dam of the Blackcap female sired by 8180, B042 that we had the pleasure of utilizing. The future of this family now lies in the capable court of 823T. 823T has been a very prolific female and is slowly establishing herself as a breed standout.

LOT 30 TJB 823T XTERMINATOR 310A-ET

Double Polled • Homo Black • BA75
