AM EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLink®, CAB®, Pathfinder®.

Cattlemen welcome to the 2022 Louisiana Angus Association Bull Sale. I'm excited to be working with the Louisiana Angus Association and this great group of consignors. These Angus Seedstock producers are offering an excellent set of Angus bulls, providing you the genetics capable of advancing your herd production. Angus bulls that are adapted to the Louisiana environment, developed and raised in the South.

All bulls will have a current semen test, trich test and breeding soundness exam (BSE). All bulls will have genomic-enhanced expected progeny differences (GE-EPDs), increasing predictability and decreasing risk due to enhanced accuracy of EPDs. Louisiana Angus Association is committed to providing the most accurate data available, providing you the information needed to buy with confidence.

The demand for Angus genetics is great, take advantage of these two-year-old bulls and coming two-year-old bulls that are ready to go to work for you. I encourage you to contact these Angus breeders to learn more about their Angus bull offering.

I look forward to seeing you in Kinder, Louisiana at the 2022 Louisiana Angus Association Bull Sale. Please contact me if you have any questions or if I can be of any assistance!

Thank You!
Luke Mobley
