Sale Staff:

Luke Mobley, Sale Manager/Auctioneer 205-270-0999
Will Harsh, American Angus Association 740-272-1386
Will Scoggins, Special Assignment 903-285-0110
Bob Burford, LAA President 318-464-8858
David Billingsly, LAA Vice President/Sale Committee 318-623-8762
Dale Schexnayder, LAA Treasurer 225-223-9242
Lana Myers, LAA Secretary 337-249-3913
Michelle Mobley, Office/Buyer Registration 205-454-6681

Absentee Bidding: Bid with confidence from the comfort of your home; simply call any member of Sale Staff or Sale Day Phones. All phone bidders are required to register for a bidder number before the sale. Registration begins Friday afternoon.

Online Bidding: **LiveAuctions.TV** Online bidding available through LiveAuction.TV, to register, watch or bid please visit www.LiveAuction.TV Please register prior to sale. For questions or technical support please call 682-816-4900 or via email TechSupport@LiveAuction.TV After the sale buyers should contact Mobley Livestock Marketing to arrange payment & pickup or delivery of purchase(s).

Terms & Condition: Terms of the sale are cash or check. Full settlement must be made to the sales clerk immediately following the conclusion of the sale and before any cattle will be released from the barn, unless prior arrangement has been made with seller or Mobley Livestock Marketing. Cattle sell under the suggested terms & conditions of the American Angus Association(www.Angus.org/pub/suggested_sale_terms.pdf)

Updates & Announcements: A supplemental update sheet will be available sale day with complete and up-to-date information. Bulls scrotal circumference plus females breeding and calving reports will be provided. Any changes from any kind in the sale book or related materials will be announced from the auction block. Such announcements shall take precedence.

Purchaser's Risk: All animals are the owner's risk prior to their sale. Each animal will become the risk of the purchaser as soon as sold.

Bidding: The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

Certificate of Registry: A Certificate of Registry for each registered animal will be transferred to the buyer at seller's expense.

Breeding Guarantee: All animals are guaranteed by the seller as outlined in the American Angus Association of America Suggested Sale Terms & Conditions. Health: Complete health certificates will be provided on all cattle for immediate interstate shipment. Sale Day Veterinarian: Dr. Amanda Morse 318-625-2902

Liabilities: Anyone previewing the cattle and or attending the sale does so at their own risk. Mobley Livestock Marketing and associates, nor Louisiana Angus Association, nor anyone connected with the sale will be held liable for injury, property loss or accident that may occur to attendees or to purchased animals. Mobley Livestock Marketing and its representatives act as an agent only; agreement is between buyer and seller. The responsibility for sold animals passes to the buyer when sold by the auctioneer. Buyers are encouraged to purchase their own insurance on newly bought cattle.

Livestock Mortality Insurance: Insurance will be available on purchased cattle if desired. Ask Mobley Livestock Marketing associates for more information.

Trucking: Truckers believed to be reliable will be available to assist with shipping. Ask Mobley Livestock Marketing associates for more information.

Sale Accommodations: Hilton Garden Inn Shreveport, 318-686-0148, 5791 Financial Plaza, Shreveport, LA
Several hotels located in the Shreveport Louisiana Financial Plaza area.
Food and Refreshments: Available at sale site, Lunch served at 11:00.

Sale Managed By:

Col. Luke Mobley 205-270-0999
www.LukeMobley.com • LukeMobley1@gmail.com

Welcome to the 2023 Louisiana Angus Association Female Sale. It is a great opportunity to be working with the Louisiana Angus Association members, bringing you an outstanding set of Angus females that were developed and raised in Louisiana. Providing you the opportunity to purchase Angus females adapted to the Louisiana environment and are capable of advancing your herd.

As you look through this sale book you will see an excellent set of Fall Calving Bred Heifers, spring calving pairs and fall calving bred cows, plus an outstanding set of open heifers. Don't overlook the selection of purebred commercial Angus Bred and open females.

The Louisiana Angus Association is committed to providing the most accurate data available. All registered cattle will be genomic tested before sale date to increase predictability and decrease risk due to enhanced accuracy of EPDs. Providing you the information to buy with confidence.

I encourage you to contact these Angus seed stock producers to learn more about their Angus female offering.

Please contact me if you have any questions or if I can be of any assistance!

Thank You!
Luke Mobley
205-270-0999

American Angus Association \$Value Indexes

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

 We are pleased to offer this beautiful DAR Stockton daughter from our Lass family as a donation heifer for the junior association. She is from one of our favorite dams and is a Maternal sister to our Fall 2021 son sold in Kinder in January. Her strong DNA profile and her outstanding phenotype will make her a valuable addition to any herd or junior program. Halter broken and gentle.

HOW TO PARTICIPATE ON LiveAuctions.TV

- CREATE AN ACCOUNT**
Click "Register to Bid" on the top right corner of LiveAuctions.tv. Fill out the required information to bid online. Agree to the terms of service and finish with the "register" button.
- REGISTER FOR A BUYER NUMBER**
From the home page or the "all auctions" page, choose the sale you're interested in. Once selected, click the "request a buyer number" button. Verify your email address with the email verification link. To verify your mobile number, click "send token". Follow the steps to authorize your mobile device and click "submit".
- BID SUCCESSFULLY**
You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you're a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

IF YOU NEED HELP REGISTERING TO BID OR TO VIEW THE AUCTION PLEASE CONTACT TECHNICAL SUPPORT
(682) 816-4900
OR
TECHSUPPORT@LIVEAUCTIONS.TV

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs). EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
 - more accurate selection
 - easier identification of genetic outliers
 - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at www.angus.org.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k or i50k by partner Zoetis.

TARGETED NUTRITION PROGRAMS FOR SERIOUS RANCHERS

CUSTOM BLENDED FEED PROGRAMS with a local staff as passionate about serving our customers as you are about your operation. **YOU DESERVE THE SERVICE AND RELATIONSHIP** of a local company with the resources of a large one.
