Welcome to the Sale

Welcome, friends, to Anthony Ranch's 3rd Annual bulls, commercial, and registered female sale. It has been a great year for raising cattle, and we have enjoyed a strong sales market. That trend looks set to continue into 2025.

We are proud to introduce and welcome our new son-in-law, Kyle Rasberry, into our family. Like Katey, Kyle grew up in the cattle business and will be a valuable asset to the family business. Welcome, Kyle! May you and Katey have a blessed life together.

One thing that hasn't changed is our commitment to providing maternal females with quality traits, phenotype, and the longevity to stay in the herd. We are confident that you will find they are the cowman's kind.

Our bulls are raised here on the ranch in an environment where they are expected to perform. That being said, they will have the conditioning and endurance to go straight to work in your herd.

Last year, our 2nd Annual Sale was a success. Our cattle sold well, but more importantly, we met new customers and made new friends. We are excited for our sale on April 4th, 2025, and hope you will join us!

Jay Anthony & Family

Jay and Jamie Anthony
with daughter Katey Jo

Kyle and Katey Jo Rasberry

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Welcome to Anthony Red Angus 3rd Annual Bull & Female Sale!

The Anthony Red Angus Sale is an event cattlemen from Oklahoma and surrounding states eagerly anticipate each year.

Jay Anthony and his family, owners of Anthony Red Angus, have built a reputation for providing quality Red Angus genetics. With outcross pedigrees and elite EPDs, Anthony Red Angus has become a leading supplier of Red Angus seedstock in the Mid-South. As you review this catalog, you'll notice the strength of the pedigrees and the high-ranking EPDs that ensure our customers receive superior genetics. This enables both registered Red Angus and commercial cattle operations to be efficient and profitable.

Anthony Red Angus bulls and females are developed in Southwest Oklahoma and are fully adapted to the local environment. These Red Angus cattle are bred to thrive in even the harshest conditions, including West Texas and Southwest Oklahoma. Every bull will come with a current semen test, a breeding soundness exam (BSE), and GE-EPDs, so you can buy with confidence.

In addition to the bulls and females, be sure to check out our select offering of commercial Red Angus females, ideal for enhancing the profitability of any commercial operation.

I encourage you to contact Jay Anthony or me for more information about the sale offerings. We look forward to seeing you at the 3rd Annual Anthony Ranches Red Angus Production Sale in Ryan, Oklahoma.

Feel free to call me or any of the sale-day phones if you have any questions or if we can assist you in any way.

Thank you!

A brown cow stands in profile, facing left, in a field with sparse green grass and dry earth. A metal fence is visible in the background. The cow has a white tag in its left ear and a white number '8' on its hindquarters. A shadow of the cow is cast on the ground in front of it.
